## Supplemental Notes on the Flora of Cap-a-L'Aigle.

By ROBERT CAMPBELL, M.A., D.D.

In the RECORD OF SCIENCE, Vol. IV., No. 1, pp. 54-68, appeared a catalogue of the plants found up to that date, during the months of July and August, in successive years. The following species were discovered in the same district in the summer of 1891:—

### EXOGENS.

#### CARYOPHYLLACEÆ:

*Arenaria peplodes*, L., Port au Persil, near the shore.

#### MALVACEÆ:

*Malva crispa*, L., in two places, apparently escaped from gardens.

#### HYPERICOACEÆ:

*Hypericum ellipticum*, Hook., on the banks of the Trou River.

*Hypericum canadense*, L., near the Loutre River.

#### LEGUMINOSÆ:

*Trifolium hybridum*, L., near the River Port au Salmon.

*Trifolium agrarium*, L., in the same locality as above.

*Vicia caroliniana*, Watt., near the cemetery, banks of Murray River.

ROSACEÆ:

*Prunus virginiana*, L., road to the Trou.

*Geum strictum*, Ait., everywhere (omitted accidentally from former catalogue).

*Potentilla pennsylvanica*, L., near Ste. Fidele.

*Crataegus tomentosa*, L., road to Loutre.

SAXIFRAGACEÆ:

*Mitella nuda*, L., east bank of the Loutre.

UMBELLIFERÆ

*Osmorrhiza longistylis*, D. C., woods on high ridge near Cap-a-l'Aigle wharf.

COMPOSITÆ.

*Solidago virga-aurea*, L., banks of a mountain stream.

*Solidago ohioensis*, Riddell, woods near Fraser Falls.

*Solidago nemoralis*, Ait., in the same locality as above.

*Aster puniceus*, L., near the Trou.

*Aster ptarmicoides*, Torr. and Gray, at the Upper Fraser Falls.

*Ambrosia artemisiæfolia* L., in one spot, come in within two years.

*Bidens frondosa*, L., on road to Port au Persil.

*Hieracium marianum*, var. *Spathulatum*, Gray, two specimens on Perrault's Hill.

ERICACEÆ:

*Vaccinium canadense*, Fraser River Road.

*Chimaphila umbellata*, Nutt., woody heights near Loutre.

*Moneses grandiflora*, Salis., one specimen near Port au Salmon River.

PRIMULACEÆ:

*Glaux maritima*, L., sandy shore near mouth of Murray River.

BORRAGINACEÆ:

*Mertensia maritima*, Don., in same situation as last above.

SCROPHULARIACEÆ:

*Pedicularis palustris*, L., marsh near mouth of Murray River.

## LABIATÆ:

*Lycopus virginicus*, L., above Ste. Fidele village.

## POLYGONACEÆ:

*Polygonum lapathifolium*, var. *incarnatum*, Watson, near Loutre.

## ELÆAGNACEÆ:

*Shepherdia canadensis*, Nutt., two specimens about half a mile apart, near Cap-a-l'Aigle P. O.

## ENDOGENS.

## ORCHIDACEÆ:

*Microstylis ophioglossoides*, Nutt., near Cap-a-l'Aigle P. O. and at the Trou.

*Habenaria hyperborea*, R. Br., mouth of Murray River.

## ALISMACEÆ:

*Alisma plantago*, L., mouth of Murray River.

## GRAMINEÆ:

*Elymus canadensis*, L., beyond the Loutre.

## FILICES:

*Osmunda claytoniana*, L., in great abundance beyond the Loutre.

*Osmunda cinnamomea*, L., in the same localities as above.

## OPHIOGLOSSACEÆ:

*Botrychium virginianum*, Swartz., one specimen near Upper Fraser Falls.

---

Three mistakes were inadvertently made in the former catalogue:—

*Physalis viscosa* should have read *Physalis grandiflora*.

*Euphorbia platyphylla* should have read *Euphorbia helioscopia*.

*Arundinaria macrosperma* should have read *Cinna arundinacea*, var. *pendula*.
